

2019 **gilbrea** centre for Studies in Aging 2020 SEMINAR SERIES

This series creates the opportunity for the exchange of ideas and stimulates discussion amongst associate researchers, graduate and undergraduate students, community members and older people. This year we will be hosting seminars with diverse research groups and networks to explore this year's chosen theme "Aging: Representation and Disparity". This theme will allow us to further explore several of Gilbrea's thematic program areas which respond to contemporary and future issues facing older people in Canada and abroad.
